## Syrup of Figs

Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.

## Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic, and is the best remedy for diarrhoea. Twenty five cents a bottle.

## WATER.

The Only salvation for the State.

The Lyon County Times advances the following sensible views on the water question:

Never in the history of Nevada has there been such a dry season as the present one. Water is short in every river in the State, and in many of the valleys stockmen have to sink wells to procure water enough for stock.

The water question, is, therefore, becoming of importance, and any method suggested by which more water can be obtained is eagerly read by every rancher in the State. Senator Stewart has an appropriation bill under way to survey and find the best places in the country between the Rocky and the Sierras for storing water, and many individuals are going to work privately on the artesian plan. As before stated in this paper we believe there are many places in the rivers of the State where reservoirs could be built at a moderate expense, that would save the water that goes to waste and make many more valuable ranches in the State.

There is a question whether the State or Government should be the proper ones to take hold of the enterprise, but it would be a good idea for both to do something towards the work. There are rivers that run through the State that head outside of the State, but there could be no objections made by any outsiders to what work in the way of reservoir building should be done in this State. We believe that it is the duty of the State to look after the water question so far as she has power, and have in our mind one or two places where water could be stored that would irrigate considerable new country and give settlers a chance to come in and find and make comfortable homes. One of these places is on the Carson river and another is near the head of the West Walker river. In the latter there is a splendid reservoir site in the canyon above where the river enters Smith's Valley.

Enough could be stored by building a reservoir at this point to give the ranchers in the Valley water the year around and also irrigate eight or ten good sized new ranches. The land is there and all that is now required to make more prosperous homes is water. This may be said in regard to storage of water on the Carson river.

There may be an argument raised as to appropriating money for the benefit of one section of the country, but we hold that appropriations are made for the benefit of the most number of people. If it can be shown that an appropriation can be used to greater benefit on other rivers than the ones named, the work should be done there. We believe that it is only a matter of time when our rivers will be dammed to keep the waste water that now runs off every Fall and Spring, and if one appropriation can be made for this purpose, and it is shown that it will so greatly increase the takable property, other appropriations will certainly be made for such work, and it will not be long before the people of the State will all be in a prosperous condition and not growl about the taxes being high and their being robbed to make appropriations for water purposes.

## Ladies

In delicate health, and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken and more beneficial in its effect than any other remedy. It acts promptly yet gently on the Bowels, Kidneys, Liver and Stomach, and does not sicken or debilitate. For sale by Geo. C. Thaxter, agent.

## Accident at the Lake.

Yesterday morning the engine on the logging railroad at Lake Valley near Tahoe ran off a switch and derailed the engine and tender. The engineer was seriously injured and Dr. Lee was sent for. It is supposed the switch was misplaced by a discharged employe.

—When used according to directions, Ayer's Agree Cure is warranted to eradicate from the system Fever and Ague, Intermittent, Remittent and Bilious Fevers, and all malarial diseases. Try it.

## MYSTERIOUS FATALITIES.

What is it That is Killing so many Prominent Men?

The death of Kaiser Wilhelm, ex-Gov. Hoffman, Banker J. W. Drexel, Lieut.-Gov. Dorsheimer, Dr. Carpenter, Chief Justice Waite and Genl. B. H. Brewster, in quick succession, and all from the same cause, although having different names, is startling. March and April are fatal months, not only for consumptives but also for many diseases more disguised but none the less fatal.

Gov. Hoffman had heart disease, Gov. Dorsheimer, apparently a strong, well, robust man, over six feet high, sickens and dies in four days, of pneumonia.

Chief Justice Waite meets the same fate and he was apparently the personification of vigor.

Drexel, the Philadelphia banker, and Brewster, Ex-Atty. Genl., were suddenly cut off in the midst of great usefulness, by Bright's disease, and Dr. Carpenter, the well-known New York physician, suddenly died of Kidney disease, never having suspected that he was at all troubled therewith!

This reminds us of the case of Dr. Frank Hawthorn, of New Orleans. He was lecturing before the Louisiana university on the peculiarly deceptive character of Kidney disease and the methods of microscopical and chemical tests.

After having shown specimen after specimen of diseased fluids, and made very clear the point that kidney disease may exist without the knowledge or suspicion of the patient or practitioner, with gracious self-confidence he remarked, "Now, gentlemen, let me show you the healthy water of a strong, well man."

He applies the test!

He staggers!

"Gentlemen, I have made a terrible discovery!" he gasps, "I myself have the fatal Bright's disease!"

In less than a year this specialist of the commonest and most fatal of diseases was dead. He was a victim of advanced Kidney disease the presence of which in himself he had never suspected!

L. B. PRICE, M. D., a gentleman and physician of the highest standing of Hanover, N. H., Va., four years ago, after trying every other remedy for bright's disease, including famous mineral waters, cured himself by Warner's Safe Cure, and March 24, 1888, wrote: "I have never had the slightest symptoms of my old and fearful trouble."

MR. JOHN DOHERTY, of Concord, N. H., was given up with Bright's disease by the best physicians in 1879. He was in a dreadful state. After using and being cured in 1881 by Warner's Safe Cure, in 1887, he wrote: "I am better than ever."

JOHN COLEMAN, Esq., 100 Gregory St., New Haven, Conn., was first taken sick in 1873, gradually ran down until he had pronounced Bright's disease, rheumatism and all the other deceptive signs of kidney disease. The best physicians in New Haven could do nothing for him. He then began using Warner's Safe Cure, 200 bottles of which he and his family have used and he is cured.

W. T. CRAWFORD, proprietor St. Charles Hotel, Richmond, Va., and well known all through the South, several years ago was in the death-agony from kidney disease, convulsions and bright's disease. The best Philadelphia specialists in such diseases pronounced him practically dead and incurable. Everything else failing, he took Warner's Safe Cure abundantly and regularly, until fully restored to health, and now he says, "After a lapse of many years I am as sound as a dollar, with no symptoms of my old trouble. I owe my life to Warner's Safe Cure."

Kidney disease is the most deceptive, the most universal, the most fatal disease.

If the most learned men cannot know without the use of microscopical and chemical tests that they have kidney disease, how much more liable is the layman to be, unknown to himself, in the very jaws of death, who does not feel as well as formerly, but who does not think anything specially ails him, and whose physician may assure him that he will soon be "all right."

In these days, people recognize that it is wiser to prevent disease than to await its arrival to cure it. When you know that you may be in the great-st peril and not have any idea of the fact from any defined set of ill-feelings, the wisest course to pursue is to follow the counsel and experience above outlined, and thoroughly renovate the system, cleanse the blood, tone the nerves and insure your own life against these common, mysterious fatalities.

## THE TERRYNS IN JAIL.

A Sensational Scene in Field's Court.

Yesterday there was a sensational scene in Justice Field's Court. While Field was reading the decision in the Hill-Sharon case he decided the marriage contract a forgery and null and void. He was interrupted by Mrs. Terry, who charged him with being bought.

She was ordered into custody. When the U. S. Marshall attempted to arrest her he was knocked down by Terry, who drew a long bowie knife, but finally the two were over-powered and put in a cell.

Judge Field sentenced Terry to six months' imprisonment, and Mrs. Terry to 30 days. The affair is the sensation of the hour at the Bay.

## Local Candidates.

Quite a number of local candidates advertise in another column. As the editor was on a jury nearly all day yesterday, special mention of their claims is deferred in this issue. They will be strung along during the week.
